

Quick Brick Training Academy

Lesson Plan

Subject: Brick Laying

Level: introduction

Topic: PPE

Goals:	Students will be able to identify important pieces of protective equipment.
Objectives	Understanding of how each piece of equipment offers protection and what hazards it protects from.
Materials	PPE Clothing and equipment.
Introduction	Through questioning understand the students base knowledge of what each piece of equipment is for.
Development	Staff will model how equipment should be worn.
Practice	Students will put on the personal protective equipment
Check for Understanding	Staff will check that the equipment has been fitted correctly and that each student understands what each item is for using a short tick box test.
closure	Review of how lesson went and consider areas for development and areas that went well.
